

IMAQ EML Joint Venture offers proven experience with operating and managing federal buildings across a diverse portfolio of installations and building environments. Our two companies came together to form a single 8(a) Joint Venture entity, leveraging key strengths of each small business, to the benefit of our federal customers, employees, and tribal member shareholders. Sample strengths include ISO compliant quality management, shared "Systems Thinking" approach to Complete Facilities Management (CFM), technology integration, CMMS expertise, and an unrelenting commitment to exceptional service delivery.

IMAQ Resources

IMAQ Resources, LLC is the most recent SBA 8(a), Small Disadvantaged Business (SDB) addition to the Natives of Kodiak, Inc. (NOK), an Alaska Native Corporation. As a wholly owned subsidiary of NOK, we are well-financed, well-insured, and have depth of resources to support recruiting, staffing, and project management to reduce risk and ensure reliable performance to manage and operate critical infrastructure. Federal agencies are able to benefit from our expanded contracting solutions such as enhanced facilities operations and maintenance and professional services in all aspects federal asset management, security, risk avoidance and mitigation of critical incidents.

EML

EML has been ensuring building confidence and customer satisfaction since 1997 and takes pride in working with clients to provide facility support services, future project assistance and innovative quality management solutions. Our comprehensive management program, and our ISO compliant quality control plan along with a strong client partnership, proactive management philosophy and systems thinking thought process is the reason we continuously provide premier O&M services to all of our clients.
